Overview

This is a record of everyone who has made the BlackList. This list is dedicated to the most egregious offenders, those who took things way to far or personal. This list is for offenders who are real life trolls or bad faith actors... **ALL** of their characters will make the BlackList. For these individuals, they will be barred from the **entire community as a whole**. This includes the Discord server, Websites & any private servers ever hosted by CheekyBuggersUnited.

The situation will be monitored privately by myself and my admins in these circumstances to prevent these individuals from creating a toxic environment both IN and OUT of game. We want to make sure that both the community and in game experiences remain a friendly place for all to come and enjoy. **This information is not put out with any ill intent, but rather to serve as a warning for whom it may concern. All of this information is public knowledge.** Click a name to see more information.

Black List Reason: Manipulative & destructive narcissistic behavior. Fostering a toxic & unhealthy environment.

Here is my final correspondence to Nox. Take from it what you will but I will not have this type of behavior in or around our community. You (Nox) have outright implicated other podcasts to "report" on your will before? That does not seem disrespectful to you at all? To just force your way into someone else's business and content? Just because I do PodCasts does not entitle you to air time on it. Going around telling people to tune into [InterSleuths](#) to hear your story is wrong and shady to do. I will not be implicated in anything I do not choose to engage with as a content creator. My content has nothing to do with whatever revenge scheme it is you have going on. Your behavior is destructive and self centered... Everyone I have heard testimonies from speak to this, in fact I have not heard from even 1 former member of Lake Hermits who has not shown this to be true. Your actions are not of those of a leader but are of a ruler, only concerned with what is in it for you. Countless testimonies have been shared in many places about what you had done to oppress people for your own self gain. Even your actions here in our private conversations show those true colors. You are not speaking on behalf of any people other than yourself. People were not screwed over anything because of what they did, they were screwed over because of your self-serving attitude and actions. Everything is always an attempt to promote yourself or your status. Leaders have a lot of responsibility, but also a duty to their people... Not themselves. Even those closest to you & Lake Hermits entire council have spoken out against your actions. Stating why they all chose to leave your rule. They were all oppressed and suppressed. You have consistently proven to be self serving time and time again. I will have no part in any of it, I will not be a "reporter" for any of it. I will not be implicated in any of it. I want nothing to do with any of it at all whatsoever. Any attempt to force me into being your "reporter", or to insinuate that I have any part in anything you do will be met with a swift shutdown of the entire situation. Leave me out of anything you have "planned". I will not have myself or any of my community members be manipulated by you in any way whatsoever. I have no ties with you or anything you foster at all. I will continue to promote a

fun play space for everyone around me and all those in the CheekyBuggersUnited Community. I will Continue to promote a space free of trolls and bad actors. I will continue to build my content around such values and nothing will ever change that. All of this is put out not in any attempt at ill will whatsoever. It is to inform others of my stance on the situation because claims have been made that I have something to do with all of it. Nox is hereby placed on the Black List of the CheekyBuggersUnited Community for their actions and their actions alone... Manipulative & destructive narcissistic behavior. Fostering a toxic & unhealthy environment.
