

Blood Hounds

The Blood Hounds were formed before the founding of The Order of the BloodBrothers.

The Blood Hounds are the PvP Hunting enclave within The Order of the BloodBrothers. Though they have many tasks, their one true charge is to hunt down and eliminate any and all threats contained within The Blood List. Each Blood Hound has a uniquely refined set of skills and equipment designed for the elimination of such threats. Only the most heinous of criminals find themselves on The Blood List, these terrible threats must be eliminated & The Blood Hounds make sure of that. Working very closely with The Black Bloods Enclave they ensure the success of many operations. Led by Alpha Prime, they hunt far and wide to ensure those on The Blood List can no longer harm the free people of Tremem & beyond.
